

NAME : Muhammad Ibrahim Saif

ROLL NO: FA24-BCS-071

Assignment 1

Task: Build a single-page personal CV/résumé as a static HTML + CSS website — no JavaScript, no framework, just semantic HTML5 and hand-written CSS. This is where you prove you actually know the raw building blocks before anything is allowed to hide them from you.

Your page must include, at minimum:

- A header with your name, a short professional tagline, and a photo (a placeholder image is fine).
- An “About Me” section.
- An “Education” section listing your academic history in a semantic list or table.
- A “Skills” section.
- A “Contact” section with a real `<a href="mailto:...">` link and at least one social/portfolio link.
- Correct use of semantic HTML5 elements throughout — `<header>`, `<nav>`, `<main>`, `<section>`, `<article>`, `<footer>` as appropriate, not a page built entirely out of unstyled `<div>`s.
- Styling entirely in a separate `styles.css` file (external stylesheet, not inline `style=""` attributes) using the box model correctly — sensible margins, padding, and borders, not everything jammed against everything else.

Code:

```
<!doctype html>
<html lang="en">
  <head>
    <meta charset="UTF-8" />
    <meta name="viewport" content="width=device-width, initial-scale=1.0" />
    <title>Personal CV</title>
    <link rel="stylesheet" href="styling.css" />
  </head>

  <body>
    <header class="site-header">
      <div class="header-content">
        

        <div class="intro">
          <h1>Ibrahim Saif</h1>
          <p class="tagline">Computer Science Student | COMSATS University</p>
          <p>
            interested in software engineering, artificial intelligence, and
            building practical projects.
          </p>
        </div>
      </div>
    </header>

    <nav class="navbar">
      <ul>
        <li><a href="#about">About</a></li>
        <li><a href="#education">Education</a></li>
        <li><a href="#skills">Skills</a></li>
        <li><a href="#contact">Contact</a></li>
      </ul>
    </nav>

    <main>
      <section id="about" class="section">
        <h2>About Me</h2>

        <article>
